Caterpillar  
Met-Life  
Raytheon  
Aircraft  
University of Colorado  
Wells Fargo

## PCL2PDF

PCL2PDF converts LaserJet PCL print files to industry standard PDF (Portable Document Format). PDF documents can be viewed and printed using the Adobe® Acrobat® range of products. Distribute your converted print files around the Internet or your company for easy viewing, searching and printing.

PCL2PDF quickly converts PCL print files to concise, PDF documents. PCL2PDF does not use a raster based conversion. Use command line versions in batch and unattended operations. Fully configurable. Specify default printer "front panel" settings including page size and orientation. PCL2PDF automatically selects sensible defaults and can convert files of 1000's of pages.

- Command line server based versions available for Windows, Unix, Linux, AS/400, AIX, OpenVMS, and Tandem.
- OEM/Development Licenses available for integration of PCL2PDF into third party applications.
- Webserver Version allows easy server access over the web.
- Upgrade to InterActivePDF™ from LBM Systems to create user-fillable PDF output.
- Use AXIAR from LBM Systems to automatically route and track PDF output created with PCL2PDF.
- Annual Support and Update Service provides technical support via phone and email.

**PCL2PDF Manual:** Please feel free to browse the online manual which provides more in depth answers to technical questions. <http://www.visual.co.uk/pug/Pcl2pdfUserGuide.htm>
